## Experience

---

**Front-End Developer Internship**, Coding Thinker Pvt. Ltd. – Gwalior, India Nov. 2023 – Jan. 2024

- Designed and implemented responsive user interfaces using React.js, ensuring intuitive user experiences.
- Developed and maintained web applications using HTML5, CSS3, JavaScript, and frameworks such as Bootstrap and Tailwind CSS.

## Projects

---

**Medicine App** Medicine Application

- Developed a **Medicine Tracker App** using **React Native (Expo)** and **Firebase**, enabling users to **securely log in, track their medication schedules, and monitor their history**. Implemented **real-time reminders, status updates (taken/missed), and an intuitive UI** for seamless prescription management. Leveraged **Firebase for authentication and data storage**, ensuring a smooth and efficient user experience.
- Tools Used: React , React Native , Expo , Firebase

**Portfolio Website** Portfolio Website

- Built a responsive portfolio website using React, Vite, and Tailwind CSS. The website implements a light-dark theme and is fully responsive across devices. It is hosted live on Trendify and optimized for performance.
- Included an email feature where visitors can send messages through the contact form using Formspree, making communication seamless.
- with an average page load time of 1.5 seconds.
- Tools Used: React, Vite, Tailwind CSS, Context API

**Trendify E-commerce** Trendify E-commerce

- Created a shopping cart website using React, Vite, Tailwind CSS, and Redux. The app fetches product data from a random shopping API, allowing users to add and remove items from the cart with efficient state management using Redux Toolkit.
- Implemented light-dark mode functionality, elevating user engagement and satisfaction; ensured a seamless transition for over 500 users by conducting live testing sessions to gather real-time feedback on preferences.
- Tools Used: React, Vite, Tailwind CSS, Redux Toolkit.

**Calculator App** Calculator App

- Made a mobile calculator app supporting basic arithmetic operations with a responsive UI. The app is designed to provide high performance and smooth user interactions.
- Tools Used: React Native, Expo, TypeScript.

## Technologies

---

**Languages:** Java, JavaScript, SQL, HTML/CSS

**Front-End Technologies:** React.js, React Native, Bootstrap, Tailwind CSS, ShadCN

**Back-End Technologies:** Node.js, Express.js

**Databases:** PostgreSQL, Oracle SQL

**Development Tools:** GitHub, VS Code

**Designing / UI/UX:** Figma, Notion

## Certificates

---

**JavaScript Algorithms and Data Structures Certification**, FreeCodeCamp Dec. 2024

- Completed a comprehensive course covering JavaScript fundamentals, algorithms, and data structures.
